## Eastern Range Red On Buff Culture Medallion Papers

**controlling eastern redcedar on rangelands and pastures** - controlling eastern redcedar requires periodic treatments every 10-20 years. initially, several different treatment methods may be needed if the existing eastern redcedar stands are composed of a wide range of age classes or sizes. once the trees are reduced to an even size class, they can be managed effectively by one treatment method. **field identification aspects of some red-tailed hawk ...** - field identification aspects of some red-tailed hawk subspecies james w. lish and william g. voelker the subspecies plumage of the variation red-tailed among hawk (*buteo jamaicensis*), has been a ... eastern red-tailed hawk general range: core of the breeding range is in eastern north america but **eastern red-cedar: positives, negatives and management** - eastern red-cedar is a native species and can be beneficial to wildlife, depending on the amount present in a given area. for instance, dense stands of eastern red-cedar can provide thermal, screening and escape cover for a variety of wildlife species; however, vast acreages of eastern red-cedar can dominate space that would otherwise **evidence for increasing red maple abundance in the eastern ...** - cited near but outside the western boundary of the red maple range (little 1971). in total, we used data from 2,391 counties in 37 states (32 states covered by the documented range of red maple, and five states outside of but close to its documented range; figure 1). importance value (iv) was used to describe relative **eastern pipistrelle (perimyotis subflavus) species guidance** - figure 2. the eastern pipistrelle produces a high-frequency call, the hook of which hovers almost exclusively at 42 khz. each call in the pass has a distinct hook at the base during the search phase of the pass. this pattern is similar to that of the eastern red bat. dave redell, wisconsin dnrwisconsin. source: w range of eastern pipistrelle in **western red bat - drecp** - the western red bat (*lasiurus blossevillii*) was formerly considered a subspecies of the red bat (*l. borealis*); i.e., *l. borealis teliotis*. the western red bat was split from the eastern red bat (which retained the borealis species epithet), based on genetic work by baker et al. (1988). **eastern indigo snake - united states fish and wildlife service** - threats to the eastern indigo snake. this account represents south florida's contribution to the range-wide recovery plan for the eastern indigo snake (fws 1982). description the eastern indigo snake is the longest snake in the united states (r. hammer, metro dade park and recreation, personal communication 1998), reaching lengths of up to
